

Environmental Policy of Core Crafted Design

Core Crafted Design are committed to environmental sustainability, and it is integral to all activities of the initiative, therefore we have implemented an environmental management system to develop our business in a sustainable manner and follow ecotourism principles. We do all that is practically possible to ensure energy, water and the natural environment is managed carefully, and that waste is minimised and recycled where possible. We support the local economy and community by promoting craft and craft workers from the locality. Core Crafted Design has developed the following environmental criteria.

We aim to:

- ✿ Reduce our use of non-renewable resources and of energy produced from such resources
- ✿ Reduce, reuse and recycle waste wherever practical
- ✿ Prevent and minimise pollution
- ✿ Use all resources efficiently
- ✿ Increase our use of recycled materials and materials from renewable sources
- ✿ Pass on the benefits of improved environmental practice to our staff and customers

Specifically we are: -

- ✿ Conserving energy and water
- ✿ Reducing waste through, re-using and recycling
- ✿ Monitoring and reducing our reliance on non-renewable resources
- ✿ Monitoring and reducing our use of non-ecological detergents and disinfectants and replacing them with ecological products
- ✿ Educating, training and motivating our staff to work in an environmentally responsible manner and to participate in developing new ideas and initiatives
- ✿ Communicating with our customers and providing information about local landscape, biodiversity and nature conservation measures in our area.
